OBJECTIVE

As a final year student, I have a deep understanding of programming languages such as C++ and Python, along with experience in database management systems, web development, and Android development. I thrive in collaborative team environments and effectively solve complex problems while working on various projects that showcase my technical skills.

EDUCATION

Bachelor Of Technology in INFORMATION TECHNOLOGY at COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY. 2022 - 2026

EXPERIENCE

TouchQ Software Solutions Pvt. Ltd., vyttila |Intern May 2025 – June 2025

- Collaborated with senior developers on web applications, enhancing team synergy and knowledge exchange.
- Focusing on HTML based web application development. Acquired hands-on experience in developing web applications. 2023 – Present

PROJECTS

Online Job Portal | HTML, CSS, JavaScript, PHP, MySQL

- Developed a web application designed to efficiently connect job seekers with job providers.
- The platform supports three user roles: Admin, Job Providers (Companies), and Job Seekers.
- Used HTML/CSS for frontend design, PHP/JavaScript for backend logic, and MySQL for database management.

Emotion-Based Music Player| React, Django, Python, SQLite

- Developed an intelligent music player that recommends songs based on user emotions detected through facial expressions.
- Integrated music recommendation logic to play songs according to detected moods such as happy, sad, or neutral.
- Used React for frontend design, Django for backend logic, Python for AI/ML model development, and SQLite for database management.

Infant-Care Assist| React Native, Node.js, MongoDB, Python

- Developed an AI-powered mobile application to assist parents in managing infant care by analyzing baby cries and predicting reasons.
- Integrated features like cry detection, feeding dashboard, real-time alerts, chatbot assistance, and emergency support for nearby hospitals and contacts.
- Used React Native for frontend design, Node.js for backend logic, Python for AI/ML model development and Chatbot, and SQLite for database management.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, Java

Database Technologies: MySQL, SQLite, MongoDB

Developer Tools: VS, VS Code, Android Studio, PyCharm

Technologies/Frameworks: GitHub, Android SDK, SFML, Bootstrap, React, React Native

ACHIEVEMENTS

Class Representative | BTECH IT

- Represented the class for 2 years, coordinating communication between students and faculty.

Branch Captain | IT

- Selected as the branch captain of the IT department and successfully managed a team of 200 individuals, winning Third position for the college arts festival (2025).

ACTIVITIES

National Service Scheme | Volunteer, Class Coordinator 2023 –Present

- Contributed to community service programs and awareness activities.

LANGUAGES

English, Malayalam.
